

## Blacking Out of Halls - One Sheet

|                            |  |
|----------------------------|--|
| <b>Description</b>         | Blacking out system for hall windows, satin, 100 % non-translucent. Colour: similar to RAL 7024 grey, matched to the colour of the hall. Fastening of correctly dimensioned sheets by Velcro fasteners directly onto the window frames to ensure correct function of the smoke detection system. The blacking out of the vestibules is optionally possible by means of decoration.   |
| <b>Formats</b>             | Variant 1: Hall C complete, 9 windows<br>Variant 2: Hall C west side, 2 windows<br>Variant 3: Hall C east side, 2 windows<br>Variant 4: Hall F complete, 6 windows<br>Variant 5: Hall F west side, 2 windows   |
| <b>Time effort</b>         | Approx. 2 - 5 h each, depending on the variant (for installation and removal each)   |
| <b>Mounting</b>            | By ewerk GmbH.   |
| <b>Photos</b>              | <div style="display: flex; justify-content: space-around;"> <div style="text-align: center;">  <p>Variant 4</p> </div> <div style="text-align: center;">  <p>Variant 3<br/>(smoke flaps open)</p> </div> </div> <div style="text-align: center; margin-top: 20px;">  <p>Variant 5</p> </div> |
| <b>Production</b>          | Working platforms (Riser) may be used by the Event Production upon consultation.   |
